EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Donovan on 03-01-2005.

The application has been amended as follows:

In the claims:

Claim 15, line 8, change "being configured and adapted to include" to --includes--; and

Claim 15, line 12, delete "being" and change "configured and adapted to include" to --includes--.

2. The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 15, McGuigan (US#1208997) discloses all of the limitations except for the inlet opening being smooth and including tactile feedback means (features) for causing the nut body or shank member to vibrate when the shank member engages the tactile feedback means as the nut body and the shank member are connected. It would not have been obvious to one of ordinary skill in the art to modify McGuigan such that the inlet opening was smooth and included tactile feedback means (features) for causing the nut body or shank member to vibrate when the shank member engaged the tactile feedback means as the nut body and the shank member were connected. Regarding claim 5, McGuigan discloses all of the limitations except for the inlet opening being
